

pure hydration

Go further with an Aquasak on your back

What is it?

The Pure Hydration Aquasak is the ultimate water carrier. It houses 3 litres of water in its well-protected reservoir, which is connected direct to the mouth via an insulated delivery tube.

Features include:

- Top opening reservoir for easy cleaning
- PureLink compatible
- Hygienic food-grade nylon inner lining
- Versatile array of straps & clips allow you to connect the Aquasak to almost anything.
- Rugged design – Top quality materials used to compliment a top quality design

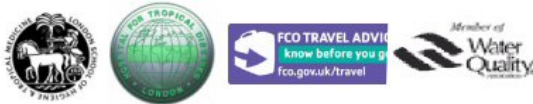

PureLink Compatible:

The Aquasak is compatible with our PureLink connectors which can be installed into the delivery tube.

This means you can easily plug any of our PureLink compatible accessories into the Aquasak to broaden your horizons.

Inline:

The Pure Hydration Inline Filter can be installed into the PureLink connectors to turn your Aquasak into a water purifier capable of cleaning 350Litres of water on the go.
