

pure hydration

The world's most advanced water purifier now fits inline

What is it?

The Pure Hydration Inline filter is a personal water purifier capable of quickly turning potentially contaminated water sources into clear, clean & safe drinking water.

From unregulated tap water in India to a mountain stream in the Himalayas, the Inline filter is all you'll need to get your drinking water.

Using the same innovative technology as our world renowned Aquapure Traveller, the Inline Filter can be fitted into the delivery tube of the majority of hydration packs, including Camelbak®, Source® Platypus® and our own Aquasak.

THE ULTIMATE WATER PURIFIER

What does it do?

- Capable of purifying 350 Litres
- Kills viruses & bacteria

Removes:

- Pathogens (including Cryptosporidium & Giardia)
- Bad tastes & odours
- Chemicals (including VOCs, SOCs)
- Heavy metals
- Faecal matter

Why the Pure Hydration Inline?

This is the **only** inline filter fully endorsed by the Hospital of Tropical Diseases London.

We are an official partner of the Foreign & Commonwealth Office's 'Know before you go' campaign and our technology is approved for use by the UK MOD.

Add Pure Hydration as a friend.

The Pure Hydration Inline Filter Assembly comes with all relevant connectors for installing into a hydration pack, and is also available without connectors as a replacement unit.

Aquasak Inline Filter Assembly
Code: AQSK/IFA – RRP: £39.99
