

# pure hydration

## The heart of your hydration pack

### What is it?

The Pure Hydration range of reservoirs are constructed from top quality materials and all come fitted with our unique PureLink connectors as standard.

All reservoirs are made from tough, yet flexible, TPU. This is tear and puncture resistant to give added protection inside your hydration pack.

We provide our reservoirs with a hygienic opening top so you can clean them, literally, inside and out.

They are available in 2 and 3 litre capacities and both of these sizes come as either top opening or sealed.

All reservoirs come complete with a flexible delivery tube and a PureLink Pop-top & on/off valve.

### PureLink Compatible:

All of our are compatible with the PureLink connectors which can be installed into the delivery tube.

This means you can easily plug any of our PureLink compatible accessories into the reservoir of your hydration pack to broaden your horizons.

### Inline:

The Pure Hydration Inline Filter can be installed into the PureLink connectors to turn your hydration pack into a water purifier capable of cleaning 350Litres of water on the go.

All reservoirs available either top opening or sealed.

**Top Opening 3 Litre:  
RRP = £22.99 inc VAT**

**Top Opening 2 Litre:  
RRP = £20.99 inc VAT**
